An Overview of Sonesta's Collection of Contemporary Art

Sonesta Hotels feature original art by many of the most vital and well respected contemporary artists of our time. Works by both emerging and established artists reflect the individual artist's vision, while illuminating some of the most significant movements in contemporary art including Conceptual, Minimal, and Pop Art, and various tendencies in both abstraction and image-based art. Sonesta's long standing commitment to supporting the visual arts also includes the commissioning of artworks specifically for the Sonesta Collection.

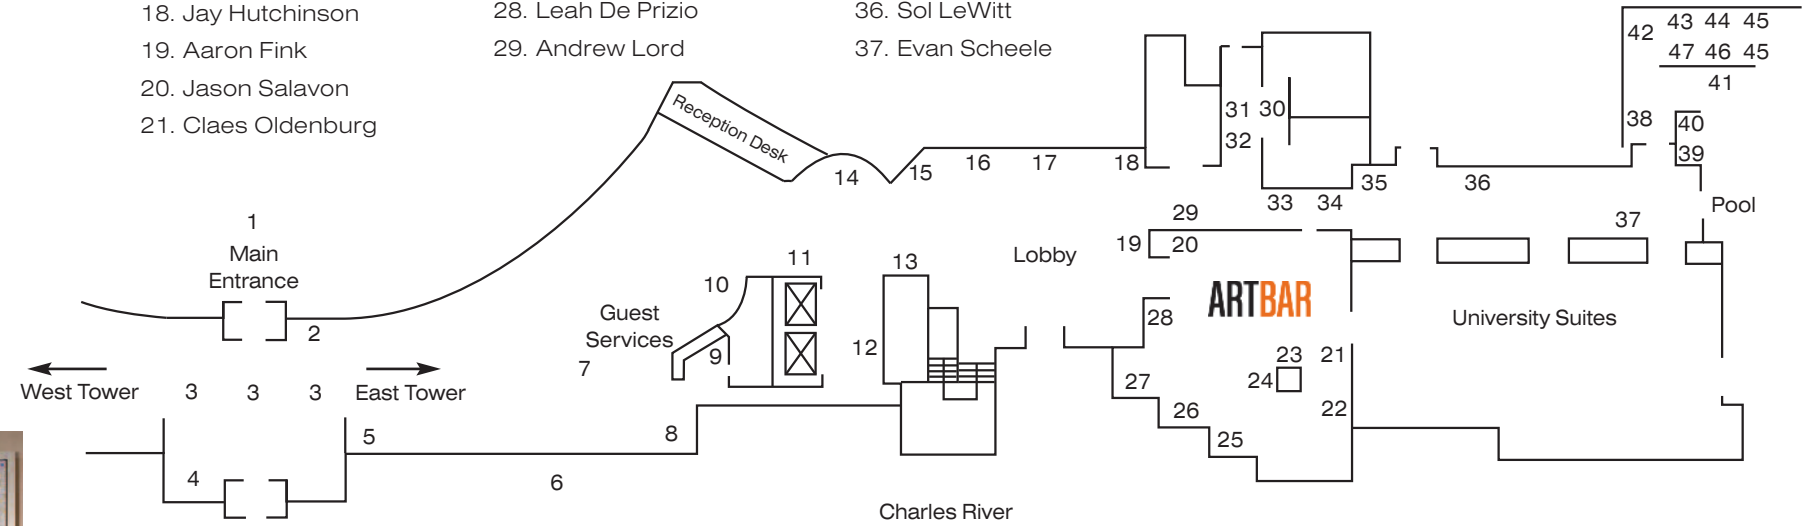

In addition to presenting a beautiful, provocative and aesthetically rigorous collection of art, the unique character of each hotel is enhanced and a welcoming and visually exciting environment is created.

Joan Sonnabend, extensively involved in the art world as a dealer and collector, has curated the collection, maintaining a level of quality found in museums and important private collections.

This brochure enables you to take a self-guided walking tour of the artworks that are on display in the public spaces and restaurants.
